**Thematic plan of seminars
in the discipline "Urology"
for students of the educational program
Specialist in the specialty of training 31.05.01 General Medicine,
direction (profile) General Medicine,
form of study full-time
for the 2023-2024 academic year**

№	Тематические блоки	Часы (академ.)
1.	Inflammatory diseases of the urinary system and retroperitoneal space. Pyelonephritis. Etiology, pathogenesis, clinical picture. Approaches to conservative and surgical treatment of inflammatory diseases of the urinary system. Part 1.	2
	Inflammatory diseases of the urinary system and retroperitoneal space. Pyelonephritis. Etiology, pathogenesis, clinical picture. Approaches to conservative and surgical treatment of inflammatory diseases of the urinary system. Part 2.	1
2.	Inflammatory diseases of the urinary system and retroperitoneal space. Paraneuritis. Cystitis. Etiology, pathogenesis, clinical picture. Part 1.	2
	Inflammatory diseases of the urinary system and retroperitoneal space. Paraneuritis. Cystitis. Laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of inflammatory diseases of the urinary system. Part 2.	2
3.	Inflammatory diseases of the male reproductive system. Prostatitis. Etiology, pathogenesis, clinical picture. Approaches to conservative and surgical treatment of inflammatory diseases of the male reproductive system. Part 1.	2
	Inflammatory diseases of the male reproductive system. Orchepididymite. Urethritis. Etiology, pathogenesis, clinical picture, laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of inflammatory diseases of the male reproductive system. Part 2.	2
4.	Hyperactive bladder. Etiology, pathogenesis, clinical picture. Part 1.	2
	Hyperactive bladder. Differential diagnostics, laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of overactive bladder. Part 2.	2
5.	Non-inflammatory diseases of the male reproductive system. Varicocele. Hydrocele. Etiology, pathogenesis, clinical picture, laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of non - inflammatory diseases of the male reproductive system. Part 1.	2

	Non-inflammatory diseases of the male reproductive system. Phimosi. Peyronie's disease. Etiology, pathogenesis, clinical picture, laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of non - inflammatory diseases of the male reproductive system. Part 2.	2
6.	Benign neoplasms of the genitourinary system. Kidney cysts. Polycystic kidney disease. Etiology, pathogenesis, clinical picture, laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of benign neoplasms of the genitourinary system . Part 1	2
	Benign neoplasms of the genitourinary system. Polyps of the urinary system organs. Cysts of the testicular appendages. Genital viral warts. Etiology, pathogenesis, clinical picture, laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of benign neoplasms of the genitourinary system. Part 2	2
7.	Trauma of the genitourinary system. Injury to the kidney, ureter, bladder, urethra, scrotum, penis. Clinical picture. Part 1.	2
	Trauma of the genitourinary system. Laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of traumatic injuries of the genitourinary system. Part 2.	2
8.	Stricture disease of the urethra. Etiology, pathogenesis, clinical picture. Part 1.	2
	Stricture disease of the urethra. Laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of urethral strictures. Part 2.	1
9.	Erectile dysfunction. Etiology, pathogenesis, clinical picture. Laboratory and instrumental diagnostic methods. Approaches to conservative and surgical treatment of erectile dysfunction.	2
	Intermediate certification	2
	Summary	34

Considered at the meeting of the department of urology 24.05.2023, protocol №10

Head of the department, D.Sc. (Medicine), professor

D.V. Perlin
