

**Assessment tools for certification
in the discipline**

**"Diagnosis and treatment of emergency conditions in the practice of a
dentist "**

**for students of the educational program
Specialist
in the specialty 31.05.03 Dentistry,
direction (profile) Dentistry,
form of study Full-time form
for the 2023-2024 academic year**

Intermediate attestation is carried out in the form of an offset.

Intermediate certification includes the following types of tasks: interview, solving a situational problem.

1. Examples of situational tasks

Verifiable indicators of achievement of competence: UK-1.3.1; UK-1.2.1, UK-1.2.3; UK-1.2.2; UK-1.3.2; GPC-1.2; GPC-5.1; GPC-6.1; GPC-7.1; GPC-9.2.1; GPC-13.1.2; PC-2.1; PC-3.1.1, PC-3.1.2; PC-3.3.3; PC-3.2.1; PC-3.2.2; PC-3.2.3; PC-3.3.1; PC-3.3.2; PC-3.3.3;

Clinical situational task 1

A patient with rheumatic heart disease (combined mitral valve disease with predominance of mitral stenosis) was brought from the therapeutic department to the dentist for tooth extraction.

Sitting in a chair, the patient watched with fear the preparation of instruments for extraction and suddenly began to suffocate. The face was covered with sticky sweat, acrocyanosis developed, breathing became bubbling, pink foam appeared. Pulse 120 bpm per minute, arrhythmic, weak filling. BP 100/60 mmHg During auscultation of the lungs, a lot of small and medium bubbling wet rales are heard in all fields, which makes it difficult to auscultate the heart.

1. What happened to the patient?
2. What is the mechanism of hemodynamic disorders in this condition?
3. Urgent help?
4. Can cardiac glycosides be administered?
5. Tactics of the dentist to prepare this patient for tooth extraction?

Clinical case study 2

Patient P., 68 years old, suffering from hypertension for many years, suddenly fell down in the store. On examination, the face is purple, breathing is hoarse, the right cheek is puffed out ("sails"), the nasolabial fold on the right is smoothed. The pupils do not react to light. The right arm and leg are atonic. Pulse 62 bpm per minute, tense.

1. What happened to the patient?
2. Necessary additional examination?
3. Urgent help?

2. List of interview questions

No	Questions for midterm assessment	Verifiable indicators of achievement of competencies
1.	Causes of hypertensive crisis and the mechanism of its	YK-1.3.1; YK-
