I, Shkarin Vladimir Vyacheslavovich, confirm that this self-assessment report on the program accreditation of the main professional educational program of the specialist in the specialty 31.05.03 Dentistry of the educational organization "Federal State Government-Funded Educational Institution of Higher Education "Volgograd State Medical University" of the Ministry of Healthcare of the Russian Federation", containing 176 pages, presents absolutely reliable, accurate and exhaustive data that adequately and fully characterize the activities of the university.

V.V.Shkarin

Changes in the official name of the university since its foundation

Official name	Date, Administrative Act
Stalingrad State Medical Institute	Year 1935 (Decree of the Council of People's Commissars of the USSR dated 17.08.1935 No. 1818).
Volgograd State Medical Institute	Year 1961 (after the Decree of the Presidium of the Supreme Soviet of the RSFSR of 10.11.1961 d. No. 722/I "On the renaming of the Stalingrad Region into the Volgograd Region and the city of Stalingrad into Volgograd")
Volgograd Medical Academy	Year 1993 (Order of the Council of Ministers – the Government of the Russian Federation dated 25.06.1993 No. 1127-R, Order of the Ministry of Healthcare of the Russian Federation dated 12.07.1993 No. 159)
State Educational Institution of Higher Professional Education "Volgograd State Medical University" of the Ministry of Healthcare of the Russian Federation	Year 2003 (Order of the Ministry of Education of the Russian Federation dated 08.01.2003 No. 10, Order of the Ministry of Healthcare of the Russian Federation dated 11.02.2003 No. 102)
Volgograd State Medical University of the Ministry of Healthcare and Social Development of the Russian Federation	Year 2008 (in accordance with the Decree of the Government of the Russian Federation dated 10.09.2008 No. 1300-r)
State Educational Institution of Higher Professional Education "Volgograd State Medical University" of the Ministry of Healthcare of the Russian Federation	Year 2012 (in accordance with the Decree of the Government of the Russian Federation dated 19.07.2012 No. 1286-r)
Volgograd State Medical University of the Ministry of Healthcare of the Russian Federation	Year 2016 (Order dated 15.07.2016 No. 1029-KM "On the Enactment of the New Edition of the Charter and Change of the Name of the University")

51.	Theoretical Foundations and Practical Aspects of General Practice Dentistry	144	General Dentistry		In-person	Contractual
52.	Current Issues of Oral and Maxillofacial Surgery	144	Oral and maxillofacial surgery		In-person	Budgetary, Negotiable
53.	Maxillofacial traumatology	36	Oral and maxillofacial surgery	Dentistry, surgical	In-person	Budgetary, Negotiable
54.	Preparation for Periodic Accreditation in Practical Dentistry	18	Therapeutic dentistry Pediatric Dentistry Dentistry, surgical General Dentistry		In-person	Contractual
55.	Applied Periodontology	18	Therapeutic dentistry Pediatric Dentistry Dentistry, surgical General Dentistry		In-person	Contractual
56.	Dental aesthetics. Solutions.	18	Therapeutic dentistry Pediatric Dentistry Dentistry, surgical General Dentistry		In-person	Contractual

57.	State-of-the-art technologies for instrumental root canal treatment	18	Therapeutic dentistry Pediatric Dentistry Dentistry, surgical General Dentistry		In-person	Contractual
58.	Clerical work in dentistry	18	Therapeutic dentistry Pediatric Dentistry Dentistry, surgical General Dentistry		In-person	Contractual
59.	Young Dentist Course	18	Therapeutic dentistry Pediatric Dentistry Dentistry, surgical General Dentistry		In-person	Contractual
60.	Complaint to the Dental Clinic: Analysis of Clinical Cases	18	Therapeutic dentistry Pediatric Dentistry Dentistry, surgical General Dentistry		In-person	Contractual

Use of andragogical principles of teaching at the university

Principle	Implementation of the principle
Prioritize self-paced learning	The curriculum contains hours allocated for students' independent work
Principle of joint activity	TBL methods (e.g., case study, business and role-play, etc.) are included in the curricula for academic disciplines.
The principle of relying on the learner's experience	The life experience of senior students is formed by the parallel combination of educational and professional activities (in the positions of middle and junior medical personnel)
Individualized learning	The curriculum provides for elective disciplines, elective disciplines, and professional tracks
Systematic training	In the methodological documentation for the disciplines, the correspondence of the goals, content, forms, means of training and the list of assessment tools used are systematically described in a logical sequence
Contextual Learning	The curriculum provides for the choice of professional tracks in the senior years of study
Principle of Actualization of Learning Outcomes	When studying disciplines at clinical departments, there is a simultaneous application in practice of the acquired knowledge, skills, skills (experience) through the use of such methods as preparing a medical history, supervising patients, participating in scientific and practical conferences, and attending tumor boards

Specialization of the student's individual educational trajectory within the framework of the educational program
Stomatology

Professional Track	Essence	Implementation Mechanism	Elective Disciplines and the Term of Their Implementation
Therapeutic dentistry, pediatric dentistry	In-depth training for the provision of medical care in the field of therapeutic dentistry, pediatric dentistry	An opportunity to choose elective disciplines of the appropriate orientation in the senior years of study, consistently developing competence in the chosen field	Semester 7 "Modern Approach to the Diagnosis and Treatment of Dental Caries in Children in International Practice" Semester 8 "Innovative Technologies in Pediatric Dentistry" Semester 9 "Diagnostics and Treatment of Hard Tissues of Teeth in Therapeutic Dentistry" Semester 10 "Diagnostics and Treatment of Periodontal Diseases in Therapeutic Dentistry"
Dentistry, Surgical, Oral and Maxillofacial Surgery	In-depth training for medical care in the field of dentistry, surgical, maxillofacial surgery		Semester 9 "Diagnostics and treatment of benign tumors and tumor-like formations of the maxillofacial region" Semester 10 "Surgical methods of treatment of periodontal diseases. Fundamentals of Mucogingival Surgery"
Orthopedic dentistry, orthodontics	In-depth training for medical care in the field of dentistry, prosthetics, orthodontics		Semester 7 "Complex removable prosthetics for dental patients" Semester 8 "Innovative Technologies in Prosthodontics" Semester 9 "Clinical and Functional Diagnostic Methods in Orthodontics" Semester 10 "Diagnostics and treatment of dentoalveolar deformities in TMJ dysfunction"

Elective disciplines (modules) B1.UOO.DE.1	Semester
Complex removable prosthetics for dental patients	7
Modern Approach to the Diagnosis and Treatment of Dental Caries in Children in International Practice	7
Elective disciplines (modules) B1.UOO.DE.3	
Innovative Technologies in Pediatric Dentistry	8
Innovative Technologies in Prosthodontics	8
Elective disciplines (modules) B1.UOO.DE.4	
Clinical and Functional Diagnostic Methods in Orthodontics	9
Diagnostics and treatment of benign tumors and tumor-like formations of the maxillofacial region	9
Diagnostics and Treatment of Hard Tooth Tissues in Therapeutic Dentistry	9
Elective disciplines (modules) B1.UOO.DE.5	
Diagnosis and treatment of dentoalveolar deformities in TMJ dysfunction	10
Surgical methods for the treatment of periodontal diseases. Basics of Mucogingival Surgery	10
Diagnosis and treatment of periodontal diseases in therapeutic dentistry	10

Dynamics of the contingent of students in the specialty 31.05.03 Dentistry

CASE STUDY 1

in the thematic block "Surgical Dentistry"

A 32-year-old patient came to the clinic complaining of a tumor-like formation of the mucous membrane of the lower lip on the left.

From the anamnesis: the formation exists for a month, its appearance was preceded by biting the mucous membrane of the lower lip.

Objective: Satisfactory condition. The configuration of the face is not altered, the submandibular lymph nodes are not enlarged. Opening the mouth is free and painless.

Locally: on the mucous membrane of the lower lip on the left, there is a tumor-like formation, about 1.0 cm in diameter, rounded in shape, soft in consistency, painless and well mobile on palpation. The mucous membrane above the formation is thinned. with a bluish tint.

Task:

1. Make a preliminary diagnosis, make a differential diagnosis.
2. Describe the main etiological and pathogenetic factors of the disease. Make a treatment plan for the patient. Suggest possible options for local pain relief.

Chairman of the Educational and Methodical
Commissions of the Faculty of Dentistry

Y.A.Makedonova

CASE STUDY 1

in the thematic block "Orthopedic Dentistry and Orthodontics"

Fig.1. Fig.2.

Patient K., 35 years old, underwent orthopedic treatment of pathology of the hard tissues of the teeth. Figures 1 and 2 show the stage of fitting prostheses on the model.

Task:

1. Name the orthopedic constructions that are presented in the photos, list their types. What are the indications for the use of these structures?
2. What materials and technologies are used in the manufacture of these structures?
3. List the clinical and laboratory stages of manufacturing these structures.

Chairman of the Educational and Methodical
Commissions of the Faculty of Dentistry

Y.A.Makedonova

CASE STUDY 1

in the thematic block "Pediatric Dentistry"

Male R.R., 15 y.o. I applied for an orthodontist's referral for professional oral hygiene. Anamnesis, according to the child: orthodontic treatment is carried out for three months; It notes the appearance of bad breath, bleeding gums when brushing teeth. Brushes his teeth twice a day. He eats soft food and loves Coca-Cola. Examination of the child: dry lips, cracks of the lower lip, seizures, hygienic index according to Fedorov-Volodkina = 2.5; Schiller-Pisarev test positive, PMA index = 11%.

Task:

1. Which diseases are at increased risk of developing orthodontic treatment with fixed appliances?
2. Make a plan to prevent possible dental diseases in this case.
3. What are the features of individual oral hygiene in patients with fixed orthodontic appliances?

Chairman of the Educational and Methodical
Commissions of the Faculty of Dentistry

Y.A.Makedonova
