

Thematic plan of seminars in the discipline " Standards of diagnosis and treatment " for students of the educational program specialist degree in the specialty/direction of training 31.05.01 General Medicine, direction (profile) General Medicine, for the 2023-2024 academic year

№	Thematic blocks	Hours (academic)
1	Standards for diagnosis and treatment of bronchial asthma. Standards for diagnosis and treatment of patients with bronchial asthma, protocols for patient management, federal clinical guidelines. Standards of diagnosis and treatment.	2
	Standards for diagnosis and treatment of chronic obstructive pulmonary disease. Standards for diagnosis and treatment of patients with chronic obstructive pulmonary disease, protocols for patient management, federal clinical guidelines. Providing primary health care; emergency, including specialized emergency medical care; specialized, including high-tech, medical care. Diagnostic standards. Standards of conservative treatment. Indications for surgical treatment. Treatment of exacerbations of COPD and asthma.	2
2	Standards for diagnosis and treatment of community-acquired and nosocomial pneumonia (part 1). Standards for diagnosis and treatment of patients with community-acquired and nosocomial pneumonia, protocols for patient management, federal clinical guidelines. Definition, classification. Diagnosis criteria. Standards for the provision of medical care at the prehospital stage. Standards of medical care at the hospital stage. Criteria for the adequacy of antibiotic therapy.	2
	Standards for diagnosis and treatment of community-acquired and nosocomial pneumonia (part 2). Standards for the provision of medical care at the prehospital stage. Standards of medical care at the hospital stage. Criteria for the adequacy of antibiotic therapy.	2
3	Standards for diagnosis and treatment of acute cerebrovascular accident (part 1)	2
	Standards for diagnosis and treatment of acute cerebrovascular accident (part 2)	2
4	Standards for diagnosis and treatment of hypertension (part 1). Standards for diagnosis and treatment of patients with hypertension, protocols for patient management, federal clinical guidelines. Classification. Diagnosis criteria.	2
	Standards for diagnosis and treatment of hypertension (part 2). Tactics for managing patients with hypertension. The choice of drug therapy depending on the clinical situation.	2
5	Standards for diagnosis and treatment of acute myocardial infarction (part 1) Standards for diagnosis and treatment of patients with acute myocardial infarction, protocols for patient management, federal clinical guidelines. Providing primary health care; emergency, including specialized emergency medical care; specialized, including high-tech, medical care. Acute coronary syndrome. Start options.	2
	Standards for diagnosis and treatment of acute myocardial infarction (part 2). Standards for diagnosis and treatment of patients	2

	with acute myocardial infarction, protocols for patient management , federal clinical guidelines. Providing primary health care; emergency, including specialized emergency medical care; specialized, including high-tech, medical care. Diagnostic standards. Criteria for acute myocardial infarction. Treatment in the ICU.	
	Standards for diagnosis and treatment of acute myocardial infarction (part 3). Standards for diagnosis and treatment of patients with acute myocardial infarction, protocols for patient management, federal clinical guidelines. Providing primary health care; emergency, including specialized emergency medical care; specialized, including high-tech, medical care. Treatment in the ward of the cardiology department. Treatment after discharge from hospital.	2
6	Standards for diagnosis and treatment of diabetes mellitus (part 1). Standards for diagnosis and treatment of patients with diabetes, protocols for patient management, federal clinical guidelines. Providing primary health care; emergency, including specialized emergency medical care; specialized, including high-tech, medical care. Classification. Standards for diagnosis and diagnosis. Principles of diet therapy. Standards and algorithms for glucose-lowering therapy.	2
	Standards for diagnosis and treatment of diabetes mellitus (part 2). Standards for the treatment of acute complications of diabetes mellitus. Clinical guidelines for the treatment of chronic complications of diabetes mellitus.	2
7	Standards for the diagnosis and treatment of sepsis (part 1). Standards for diagnosis and treatment of patients with sepsis, protocols for patient management, federal clinical guidelines. Definition. Main directions of sepsis therapy.	2
	Standards for the diagnosis and treatment of sepsis (part 2). Clinical guidelines for the diagnosis and treatment of necrotizing forms of infection. Standards of antibacterial therapy. Intensive care standards.	2
8	Standards for diagnosis and treatment of peptic ulcer. Standards for diagnosis and treatment of patients with peptic ulcers and ulcerative gastroduodenal bleeding, protocols for patient management, federal clinical guidelines. Recommendations from Maatsricht-6. Classification. Diagnosis and examination plan. Invasive and non-invasive research methods. Standards of treatment (line of therapy). Clinical recommendations for the treatment of ulcerative gastroduodenal bleeding at the prehospital and hospital stages.	2
	Intermediate certification	2
	Total	34

Considered at the meeting of the department, protocol № 10 from 29.05.2023 г.

Head of the Department

БАКУМОВ П.А.
