**ORDER**  
**conducting intermediate certification of students, including using distance learning**  
**technologies at the department of**  
**occupational diseases**  
**of the Volgograd State Medical University**

**Volgograd, 2023**

## 1. General provisions

1.1. The order was developed in order to regulate the conduct of intermediate certification (tests) in educational programs of higher education (specialty), including the use of distance educational technologies at the Department of Occupational Diseases of the Volgograd State Medical University of the Ministry of Health of Russia, taking into account the specifics of conducting intermediate certification in conditions of restrictive measures in case of the threat of and (or) the occurrence of individual emergency situations, the introduction of a high alert regime or an emergency situation throughout the Russian Federation or in the Volgograd region (hereinafter, respectively, the Order, IC, DET).

1.2. The order has been developed in accordance with the following regulatory documents:

- Regulations on the forms, frequency and procedure for ongoing monitoring of academic performance and intermediate certification of students, as well as on the expulsion of students to the Federal State Budgetary Educational Institution of Higher Education Volgograd State Medical University of the Ministry of Health of Russia" (adopted at a meeting of the Academic Council of the Federal State Budgetary Educational Institution of Higher Education Volgograd State Medical University of the Ministry of Health of Russia on February 15, 2017, protocol No. 6) ;
- Order of the Vice-Rector for Academic Affairs of the Federal State Budgetary Educational Institution of Higher Education Volgograd State Medical University of the Ministry of Health of Russia dated April 15, 2022 No. 565-KO "On approval of the Regulations on conducting intermediate certification of students, including the use of distance educational technologies in the Federal State Budgetary Educational Institution of Higher Education Volgograd State Medical University of the Ministry of Health of Russia;
- The procedure for certification for students in the specialty "Medical and Preventive Care" in the disciplines "Occupational Diseases, Military Field Therapy" and "Occupational Diseases", as well as in the disciplines "Standards of Diagnostics and Treatment" and "Occupational Diseases" for students in the specialty "General Medicine" in the 2023-2024 academic year.

1.3. This Order establishes a unified approach to the technology of conducting IC, including the use of DET in the disciplines of educational programs of higher education (specialty), and also takes into account the specifics of conducting IC under restrictive measures in the event of the threat and (or) occurrence of certain emergency situations, the introduction of a regime high alert or emergency situation throughout the Russian Federation or in the Volgograd region.

1.4. The purpose of conducting IC, including with the use of DET, is to assess the level of development of students' competencies within the framework of completed disciplines (modules)/practices, as indicators of the quality of implementation of educational programs in the Federal State Budgetary Educational Institution of Higher Education Volgograd State Medical University of the Ministry of Health of Russia.

1.6. In the case of conducting IC, using DET, the technologies used must ensure the objectivity of the assessment, the safety of the results and the possibility of computer processing of information based on the certification results.

1.7. IC is carried out within the time limits provided for by the approved curricula and calendar training schedules of the relevant educational programs.

1.8. The date of the IC (tests) is determined by the approved class schedule for the academic year, as well as the exam schedule for the academic year:

- the organization of taking tests is carried out within the deadlines for conducting tests established by the administrative act of the Federal State Budgetary Educational Institution of Higher Education of the Volgograd State Medical University of the Ministry of Health of Russia;
- organization of examinations is carried out according to the approved examination schedule.

1.9. The time for conducting IC on the discipline is calculated in accordance with the time zone of the location of the educational organization and must fall within the period from 8:00 to 18:00 (except for force majeure situations). In the case of a student's stay outside the Volgograd region (features of the implementation of regional restrictive measures) and the presence of a time zone difference, leading to the fact that the actual time of the student's IC is outside the established time frame, the student must contact the relevant specialist at least 3 days before the IC dean's office of the faculty/institute to decide on the date and time of its IC. In this case, authorized employees of the dean's office agree on the date and time of the student's IC with the head of the academic department of the department conducting the IC in the discipline. In this case, the dean of the faculty / institute informs the student of the approved date and time of the IC no later than 2 days before the IC.

1.10. The time of IC, including with the use of DET, is communicated to students and teachers in advance by posting information in the electronic information and educational environment of the Volgograd State Medical University of the Ministry of Health of Russia (hereinafter referred to as the Volgograd State Medical University EIEP) in the "Schedule" section.

1.11. This Order and departmental schedules for conducting IC, both in full-time format and using DET, are communicated to students in advance by posting information in the course of the relevant discipline on the electronic information and educational portal (hereinafter referred to as EIEP) of Volgograd State Medical University.

1.12. The Order and departmental schedule for conducting IC, including with the use of DET, are formed based on the following conditions:

- the form of conducting IC established by the relevant dean's office (face-to-face or using DET);
- the application of the electronic platform «VooV Meeting»;
- use for the category of foreign students in addition to the platform «VooV Meeting» social network capabilities ВКонтакте to interact with students via video conferencing;
- the number of groups assigned to undergo IC at a specific department on the day established by the schedule, which determines the number of teachers providing control over the IC, including with the use of DET (may not be included in the order approving examiners)
- the number of teachers providing control over IC using DET is determined primarily at the rate of 2 (two) groups per day per teacher providing control over IC using DET;
- when taking the test in a full-time format, in compliance with all sanitary norms and rules, the time for conducting the IC is up to 70 minutes (up to 10 minutes - personal identification and issuing a ticket at the beginning of the IC ; up to 30 minutes - writing a plan (thesis) response and up to 30 minutes for oral response);
- when a student completes a written assignment on paper and then scans/photographs it, the IC time is up to 90 minutes (up to 10 minutes – identification of personality and compliance with technical requirements at the beginning of the IC; up to 60 minutes – student's written

completion of the task, up to 20 min – scanning/photographing by the student of the completed and signed written assignment and sending it for verification at the EIEP);

- ensuring the verification of electronic written works of students in the EIEP and/or the assessment of oral answers is carried out in the case of a test by a teacher who teaches seminar-type classes in this discipline;

- in the case of conducting IC with DET - after the assessment of written work and/or oral answers by teachers, the mark for IC (on a 100-point scale) is given on the EIEP; students must be informed in advance that this is a grade specifically for an oral/written answer (intermediate certification rating,  $R_{IC}$ ), and not the final grade in the discipline/practice (final rating in the discipline/practice,  $R_d/R_{prac}$ ).

- in the case of conducting IC in a full-time format - after the interview, the student is verbally informed about the IC grade, as well as the final grade for the discipline (module)/practice (on a 5 and/or 100-point scale) which is entered in his grade book;

- teachers transmit the grades to the person responsible for rating students of the department, who, during the working day following the day of intermediate certification, enters information into the «ИСКРА» system, where the final rating for the discipline ( $R_d$ )/practice ( $R_d/R_{prac}$ ) is formed;

- the person responsible for the rating of students of the department, during the working day following the day of intermediate certification, downloads test/examination statements from the «ИСКРА» system and personally transfers/emails them to the head of the department;

- the head of the department, during the working day following the day of intermediate certification, checks, prints and endorses the statements; after that, scans the signed statements and sends scanned copies to the email of the relevant dean's office of the faculty / institute; it is allowed to transfer completed statements on paper in person.

## **2. Conditions necessary for conducting IC using DET**

2.1. A teacher working remotely and taking PA (test, exam, test with assessment) provides the necessary technical conditions for conducting IC using DET.

2.2. The student independently provides the necessary technical conditions for passing IC using DET.

2.3. The optimal technical conditions are the following:

- desktop personal computer (PC) or laptop PC (laptop, netbook);
  - operating system no lower than Windows 7 (both 32- and 64-bit OSES are supported) or other operating systems with versions no lower than Windows 7;
  - processor no less than IntelCore 2.2 Ghz;
  - RAM at least 4 Gb;
  - connection to the Internet information and telecommunications network at a speed of at least 3MB/s;
  - web camera (integrated or external) with a resolution of 640x480; in this case, the web camera should not be located opposite the light source;
  - speaker and microphone (integrated or external);
  - installed browsers IE version no less than 9.0, Yandex.Browser, Atom, etc.; all browsers must have the latest updates;
  - VooV Meeting software, providing video and audio communication.

2.4. Composition of participants in the intermediate certification carried out using DET:

2.4.1. Teachers who accept and evaluate the results of the IC (for the exam - from among the persons admitted to conduct the IC by order approving the examiners):

- Бакумов П.А., head of department
- Козыренко Ю.В., assistant professor

2.4.2. Teachers providing control over the conduct of IC - a teacher or teachers providing support for conducting IC using DET:

- Ковальская Е.Н., assistant professor
- Кожухова И.С., assistant professor

2.4.3. The students, undergoing intermediate certification;

2.4.4. Technical personnel ensuring the operation EIEP of the Volgograd State Medical University.

2.5. In case of technical failures in the operation of the equipment and (or) communication channel, the possibility of emergency communication between IC participants is provided:

- tel. 89023128635,
- e-mail - ovppz@yandex.ru

2.6. In case of technical failures that prevent the IC:

2.6.1. If a failure that cannot be corrected within 5 minutes occurs on the part of a specific teacher, then the teacher informs the head of the department, and the groups assigned to him are redirected to submit the IC to another teacher.

2.6.2. If there is a global failure on the EIEP/network that can be resolved within 1 hour, then teachers bring the situation to the attention of the head of the department, who decides to change the IC time for specific groups on that day. In this case, students who have already received the task, during the failure:

- when completing an assignment by hand - continue to complete a written answer under the supervision of a teacher through the VooV Meeting platform or via video call on the ВКонтакте social network (for the category of foreign students) for the time established by this Order, then sign, scan and send to the email indicated in the department's IC schedule.

2.6.3. If there is a global failure on the EIEP/network that cannot be corrected within 1 hour, the department, in agreement with the dean of the faculty or the head of the relevant EP, organizes the IC at another time during the test and examination session, about which a report is drawn up by the head of the department, and information about new deadlines for IC are communicated to students.

2.6.4. If a failure occurred on the part of the student, then the scientific and pedagogical workers of the department make a collegial decision, followed by a report from the head of the department to the relevant dean's office of the faculty/institute:

- if there is documentary evidence that the incident was not the student's fault (communication failure due to the fault of the service provider, an accident on a power line, etc.), the reason for the student's failure to pass IC is considered valid. In this case, the IC for this student is postponed to another time during the test and examination session, and information about the new dates for the IC is communicated to the student no later than 3 working days before its start;

- in other cases the reason is considered disrespectful; the student is given an unsatisfactory mark (if he managed to start completing the assignments before the failure) or failure to appear (if the student did not get in touch), while the IC is carried out within the established retake deadlines.

### **3. Procedure for testing using DET**

3.1. The Department of Occupational Diseases will not conduct studies in the 2023-2024 academic year.

### **4. Procedure for conducting an exam or test with assessment using DET**

4.1. . На кафедре профессиональных болезней в 2023-2024 учебном году не проводятся.

### **5. The procedure for conducting a PA (test, test with assessment, exam) in person**

5.1. The Department of Occupational Diseases conducts assessment tests for students in the specialty "Medical and Preventive Care" in the disciplines "Occupational Diseases, Military Field Therapy" and "Occupational Diseases", as well as for students in the specialty "General Medicine" in the discipline "Occupational Diseases" ", the test is carried out for students in the specialty "General Medicine" in the discipline "Standards of Diagnostics and Treatment" in the 2023-2024 academic year.

5.2. IC in a full-time format in the context of maintaining restrictive measures in the event of the threat and (or) occurrence of individual emergency situations, the introduction of a high-alert regime or an emergency situation throughout the Russian Federation or in the Volgograd region is carried out in compliance with the following sanitary and hygienic requirements:

- before taking a IC, cleaning the premises using disinfectants according to the viral regime, including treating all contact surfaces in common areas (door handles, switches, handrails, railings, table surfaces, etc.); if IC lasts more than 4 hours, re-treat contact surfaces;
- carrying out (if possible) air disinfection using equipment approved for use in the presence of people;
- providing conditions for hygienic hand treatment using antiseptics in the hall at the entrance to the building where IC is carried out, in sanitary facilities, as well as ensuring the constant availability of hand washing facilities, antiseptics for hand treatment in bathrooms;
- mandatory non-contact thermometry at the entrance to the building/department where IC takes place ;
- not allowing persons with elevated body temperature (above 37°C) and signs of ARVI (cough, rhinorrhea, sneezing, etc.) to IC. In this case, the student is given a failure to appear for a good reason (about which a corresponding entry is made in the IC report) and the deadlines for his IC are postponed to another time during the test and examination session, and information about the new deadlines for the IC is brought to the attention of the student no later than 3 days in advance, working days before its start;
- preventing crowds of students (including in the halls, corridors before the start of IC), monitoring compliance with social distance, including when seating in the classroom for IC;
- the presence of properly worn personal respiratory protection equipment on all IC participants (students, teachers, support staff);
- organizing a centralized collection of used disposable masks after ending IC, packaging them in plastic bags before placing them in waste collection containers.

5.3. After passing the IC, the student is verbally informed by the teacher of the IC grade, as well as the final grade in the discipline (on a 5 and/or 100-point scale) which is entered in his grade book.

5.4. Teachers transmit their grades to the person responsible for rating students of the department, who, during the working day following the day of intermediate certification, enters the information into the «ИСКРА» system, where the final rating for the discipline (Rd) is formed.

5.5. The person responsible for the rating of students of the department, during the working day following the day of intermediate certification, downloads test/examination statements from the «ИСКРА» system and personally transfers/emails them to the head of the department.

5.6. The head of the department, during the working day following the day of intermediate certification, checks, prints and endorses the statements; after that, scans the signed statements and sends scanned copies to the email of the relevant dean's office of the faculty / institute. It is allowed to hand over completed statements on paper in person.

5.7. Students who do not pass the IC are assigned a re-certification in accordance with internal local regulations and the retake schedule.

## **6. Validity**

6.1. This Order comes into force in place of the Order for conducting intermediate certification in disciplines at the Department of Occupational Diseases of the Volgograd State Medical University of the Ministry of Health of Russia in the event of the threat and (or) occurrence of individual emergency situations, the introduction of a high alert or emergency situation throughout the Russian Federation or in the Volgograd region and is valid for the 2023-2024 academic year.
