

INSTRUCTIONS FOR PERFORMING INDEPENDENT WORK BY STUDENTS (SRO)

1. Student independent work (SRO) includes independent study of individual topics provided for in the work program.

The student reporting form is a synopsis or an essay.

When writing a summary or preparing an abstract, you must use the sources given in the “List of basic and additional literature necessary for studying the discipline” and “List of information sources (Internet resources) and professional databases” (located in the section “Educational, methodological and information support disciplines on EIOS).

2. Design rules

2.1. To write an SRO (note), a separate notebook with a volume of 48 or more sheets is taken. The first page at the top in the center is signed as follows: “Independent work of student No. 1 in the discipline “.....” of the 1st year student(s) of __ group, studying under the specialty program in the specialty “..... .” , Surname. Name. Surname”

2.2. The summary is written according to the “Question-Answer” principle: the number of the question from the list is given, the text of the question is rewritten, then a detailed answer to the question follows. At the end of the work there is a list of used literature (at least 5 sources), compiled according to standard bibliographic rules. When preparing an abstract, the work is formatted according to standard rules: the title page indicates the university, the title of the abstract, the name of the supervisor and the name of the person who completed the work; at the end there is a list of references used (see above). When writing an abstract, at least 7-8 literary sources should be used.

2.3. The length of the answer to each question is not regulated

2.4. Total volume of SRO: abstract at the rate of 2 handwritten sheets for 1 hour of independent work; abstract – 8-10 sheets of A4 format handwritten text). The number of hours allocated to study the SRO topic is indicated in the SRO thematic plan.

2.5. All pages of the CPC must be numbered sequentially.

2.6. The completed work must be submitted in accordance with the reporting deadlines (indicated in the calendar-thematic plan of the SRO

2.7. The evaluation criteria for SROs are presented in the document “Procedure for certification in the discipline.”

Approved at department meeting No. 9 dated April 18, 2024.
