1. Assessment tools for current certification of the discipline

Current certification of students is carried out at classes and includes: assessment of the level of physical fitness, assessment of the fulfillment of independent work.

1.1. Examples of physical fitness assessment.

Assessment of the level of physical fitness is represented by exercises of a particular module selected by the student in the current semester. The level of physical fitness is recorded by the teacher in the form of a grade in the appropriate section of the grade book.

Checked indicators of competence achievement: UC -7.2.1, UC -7.3.1, GPC -2.2.3, PC -5.1.1.

1.2. Criteria for assessing students' independent work

Independent work of students includes compulsory performance of a weekly motor volume with completion of the diary of self-monitoring.

Checked indicators of competence achievement: UC-7.2.1, UC-7.3.1, GPC-2.2.3, PC-5.1.1.

Approximate indicators of the self-control diary in the performance of independent work of the student

	№	Indicators	Date
			01.12.24
Common	1	Sleep rating	Norm
	2	Sleep time, h	7
	3	Heart rate lying down in the morning, bpm	55
		Heart rate standing in the morning, bpm	65
		The difference in beats/min	10
4	Blood pressure in the morning, heart rate	118/78, 65

8	Assessment of exercise tolerance good	Good		
9	Notes (a set of exercises is given in accordance with the thematic plan of IWS)			

2. Assessment tools for conducting intermediate certification in the discipline

Intermediate certification is conducted in the form of a student's report, which is a defense of the self-control diary.

Checked indicators of competence achievement: UC-7.2.1, UC-7.3.1, GPC-2.2.1, GPC-2.3.1, PC-3.2.1, PC-3.3.1.

The self-control diary is a mandatory reporting document in which the student presents the following sections:

- attendance for the entire period of mastering the discipline;
- assessment of the level of physical fitness for 1-6 semesters of training
- doing independent work for 1-6 semesters.

The report evaluates:

- the quality of the submitted by the student self-control diary by sections
- the final level of physical fitness of the student.

The assessment of the level of physical fitness consists of an analysis of the individual data of the student's preparation for the entire period of study.
